Anthony Wayne Baseball Stadium Undergoes Renovations and Improvement

Anthony Wayne High School baseball spectators will have some new seating at the stadium this spring thanks to numerous fundraising efforts by the baseball program as well as many generous donations from parents, local businesses, and community members. The stadium seating has been upgraded over the winter with true "stadium" type seating located behind the backstop. This project will be completed this coming summer when a brick seating wall will be constructed to help give the seats an enclosed look. Funding for this project has come entirely from fundraising efforts from the baseball program, donations, and seat sales, which will help pay for continued stadium improvements. The baseball program, including players, parents and coaches, participated in a variety of fundraising events including working the Lucas County Rib-Off, Summit Packing, where players helped package cookie boxes to raise money, and holding an annual reverse raffle. Funds were also donated by alumni, families, and local businesses and corporations. The baseball program would also like to thank the following list of business and individuals for helping to make the stadium renovations possible by donating their time and discounted services to this project.

Bueher Group, Architects
Tom Allen – Diversified Road and Pipe
Tri-County Sales
Larrow Masonry
Anthony Wayne Athletic Boosters
Jim Jones Excavating
American Seating
